## **Superior Engineered Products Offers New Full Lifetime Warranty**

***Material and labor now covered on all vinyl windows and doors***

Ontario, Calif. – Superior Engineered Products, a subsidiary of Atrium Companies, Inc., announces a new lifetime warranty on all vinyl windows and doors. As a leader in quality products and engineering, Superior will now offer customers the most thorough warranty available covering both materials and labor for the lifetime of the product.

“Superior has been offering customers the highest quality windows and doors for more than 50 years and we’re happy to now offer the industry’s most powerful warranty. It is truly a full warranty covering both materials and labor. This new lifetime warranty speaks to our continued dedication to customer service and satisfaction,” said Bill Walters, vice president of operations, Superior Engineered Products.

While the new warranty covers material and labor on all vinyl windows and doors, it also covers accidental glass breakage and is transferable if the home is sold. The warranty is particularly beneficial in the retrofit market because it allows homeowners to make one purchase that will be maintained for as long as they own the home. For more detailed information on the new lifetime warranty visit [www.superior-windows.com](http://www.superior-windows.com).

### **About Superior Engineered Products**

Superior Engineered Products ([www.superior-windows.com](http://www.superior-windows.com)) has a history of more than 50 years in the window and door industry. The company manufactures windows and doors for both new construction and replacement applications. Its product portfolio consists of a complete vinyl line, as well as aluminum clad wood products. Superior offers high-end replacement windows under the Ultima and Deluxe categories and sells its products primarily through distributors and window retailers in California, Arizona, Nevada and Hawaii.

### **About Atrium Companies, Inc.**

For more than 50 years, Atrium ([www.atrium.com](http://www.atrium.com)) has provided vinyl and aluminum windows and patio doors to the residential construction, repair and remodeling industries through uncontested quality, selection and service. Atrium has a portfolio of products marketed under the corporate brand name Atrium®, as well as the brands HR Windows™, Danvid Window Company, Superior Engineered Products Corporation and Thermal Industries™. As one of the industry’s most vertically integrated window and door manufacturers, Atrium also owns MD Casting; Atrium Extrusion Systems; Dow-Tech Plastics; Extruders, Inc.; Aluminum Screen Co. and RG Darby Co., Inc. These manufacturers of Atrium components help provide a consistent, high-quality and cost contained supply chain to the numerous window and door fabrication facilities Atrium has throughout the country.
