Atrium Companies, Inc. Introduces New Casement Window Line

New Series 700 window family debuts at International Builder's Show 2007

DALLAS – Atrium Companies, Inc., manufacturers of Atrium Windows and Doors-branded products, will debut its new Series 700 casement window family at the International Builder's Show, booth W5045. The Series 700 family includes casement windows that can be hinged on the right or left with the sash opening outward for full ventilation and easy cleaning of the glass from the inside. The Atrium Windows and Doors Series 700 casement window offers contemporary good looks combined with exceptional engineering and outstanding energy efficiency.

Series 700 casement windows are available in all standard sizes on single-vent units in up to 3-foot widths. The Series 700 features an integrated nail-fin design, pre-punched to target proper nail location for quick, easy installation. The 700 casement window family is also available in a true replacement model.

Product details: The new Series 700 casement window family offers the following value-added features:

- Multi-seal weather protection provides multiple barriers and maximum defense against air and water infiltration
- Truth Maxim[®] Hardware – low-profile lock handle provides a popular aesthetic appeal with a multi-point locking system providing superior pull-in mechanism and structural performance
- Slim-line mullion design – continuous head and sill design provides for modular sizing
- Precision mitered fusion-welded corners delivering superior structural strength and weather resistance
- Multi-chambered frame assembly improves thermal performance and helps enhance sound absorbency

Additional options: The ability to upgrade glass options to meet any thermal, cosmetic or functional requirement is an important feature of the new Atrium Series 700 family. The Series 700 also features a beveled exterior profile, as well as thick insulated glass panels with a warm edge spacer system for optimum thermal performance.

- Energy-saving low-e glass for comfort and green living
- Low-e glass with insulating argon gas for soundproofing
- Decorative grids available in a variety of widths and styles

- more -

In addition to the new casement window family, Atrium offers a wide range of products including awnings, picture windows and architectural-shaped windows. Working with Atrium allows distributors, builders and remodelers a single window source, simplifying scheduling and delivery.

The 700 series product line will roll-out across the country throughout the first quarter of 2007 with distinct model nuances for all markets from coast-to-coast. Please check with the Atrium facility producing windows in your area for specific model numbers and product features. Product attributes may vary slightly based on regional market preferences.

About Atrium Companies, Inc.

For more than 50 years, Atrium Companies, Inc. (atrium.com) has offered the highest quality window and door products to meet the demands of builders, contractors and distributors in the residential construction industry. Dedicated to meeting the needs of its customers, the Atrium family of brands provides a versatile range of window and patio door products, including vinyl and aluminum models, as well as replacement and new construction product lines. A variety of window styles is also available through the Atrium family including single- and double-hung, horizontal slider, casement, tilt-and-turn and architectural shapes. Specialty products range from hurricane impact solutions with Atrium's Safe Harbor[®] impact-resistant windows, patio doors and hurricane window shutters, to innovative soundproofing Silent Guard[™] Sound Suppression Windows. The company's portfolio of brands includes its flagship Atrium Windows and Doors brand, Superior Windows, Thermal Industries, Danvid Door and Window, HR Windows, Champion Window and Darby Door.
